

1	_____ class is responsible for enqueuing any task to message queue and processing them. Each Handler can be associated with one _____	Looper	Handler	Message Queue	Queue	Handler
2	Message Queue: This class holds the list of messages to be dispatched by the looper. You can just call _____ to get list of messages. We do not normally deal with it.	Message. myqueue()	Looper.Message()	Looper.myqueue ()	Myqueue()	Looper. myqueue ()
3	The search dialog is always hidden by default, until the user activates it. Your application can activate the search dialog by calling _____	onsearchrequest with()	onrequested()	searchableactivity()	onSearchRequeste d()	onSearchRequest ed()
4	_____ Called by the system to notify a Service that it is no longer used and is being removed	onCreate()	onBind()	onStart()	onDestroy()	onDestroy()
5	If you want to create a _____ alarm, use the setRepeating() method, _____(AlarmType, Time (in milliseconds), Interval, PendingIntent);	setRepeating()	onRepeating()	withRepeating()	offRepeating()	setRepeating()
6	If we need precision scheduling and you are targeting Marshmallow or later, we shall use the new _____ method introduced at API level 23	setAllowWhileIdle e()	setExactAndIdle()	setWhileIdle()	setExactAndAllow WhileIdle()	setExactAndAllow WhileIdle()
7	android.intent.action. _____ : Indicates low battery condition on the device	LOW_BATTERY	BOOT_BATTERY	BATTERY_LOW	BATTERY_LOW()	BATTERY_LOW
8	1. android.net.conn.CONNECTIVITY_CHANGE : The mobile network or wifi connection is changed or ?	reset	modified	notchanged	connectivity	reset
9	<receiver android:name="_____ "></receiver>	.MyWakeful	MyWakefulReceive	MyfulReceiver	MyWakeupReceive	MyWakefulReceiv
10	registerReceiver BroadcastReceiver , IntentFilter,IntentFilter filter=new IntentFilter (ConnectivityManager.CONNECTIVITY_ACTION), IntentFilter.addAction (Intense _____),this.registerReceiver (this	AIRPLANE_MOD E_CHANGED	ACTION_MODE_C HANGED	ACTION_AIRPLANE MODE	ACTION_AIRPLANE MODE_CHANGED	ACTION_AIRPLANE MODE_CHANG
11	To add a WebView to your app, you can either include the <WebView> element in your activity layout, or set the entire Activity window as a WebView in _____	onClick()	onCreate()	onMake()	onActivity()	onCreate()
12	To bind a new interface between your JavaScript and Android code, call _____	addJavascriptInte rface()	addJavaInterface()	JavaScriptInterface()	addJavaScript()	addJavaScriptInte rface()
13	_____ called when the user selects a menu item. You will use onMenuItemClick() event handler to handle such event.	OnItemClickListe ner()	OnMenuClickListe ner()	OnMenuItemClickLis tener()	MenuItemClickList ener()	OnMenuItemClick Listener()
14	Modify the default content of _____ file to include Android UI controls	res/activity_mai n.xml	activity_main.xml	layout/activity_main .xml	res/layout/activity _main.xml	res/layout/activit y_main.xml
15	com.google.android.gms. _____	location.Listener	location. LocationListener	Locationlistener	local. Locationlistener	location. LocationListener
16	_____ method is used to find GPS enabled or disabled programmatically in android?	A - finish()	B - getGPSStatus()	C - onProviderDisable()	D - getGPS()	C - onProviderDisabl e()
17	_____ is the HTTP response error code status in android?	A - status code < 100	B - status code > 100	C - status >= 400	D - None of the above	C - status >= 400
18	_____ is a push mechanism for publishing Web site data that is device-specific?	a) WAP	b) GPRS	c) GAP	d) None of the mentioned	a) WAP
19	Loading images directly in _____ method of Adapter then it blocks the UI thread and your ListView scroll will be interrupted and not smooth.	getView()	getView()	fetch()	get()	getView()
20	_____ class provided in Android SDK to store images in memory (Heap)	LruCache	Cache	fetch	fetch	LruCache
21	Lazy _____ loading means delegating _____ loading tasks to a ready-made program	image	audio	text	none of these	image
22	_____ is a cross-platform messaging solution that lets you reliably send messages at no cost.	Firebase Cloud Messaging	Messaging	both a and b	both a and b	Firebase Cloud Messaging
23	_____ is an open-source media management and image loading library for Android.	Glide	Image	both a and b	none of these	Glide
24	Fresco is an open-source image management library and offers following advantages. _____ can be used to show as a loading screen before app launches. We can use Splash Screen to load	Displaying image placeholders until the image arrives from the network, the local storage or a local resource.	Two levels of cache, in memory and in internal storage.	Streaming progressive JPEGs and Displaying animated GIFs and WebPs.	All of these	All of these
25	_____ some data from _____	Splash Screen	Temp Screen	both a and b	none of these	Splash Screen
26	_____ How to pass the data between activities in Android?	(A) Intent	(B) Content Provider	(C) broadcast receiver	(D) None of the Above	(A) Intent
27	_____ What is transient data in android?	(A) Permanent data	(B) Secure data	(C) Temporary data	(D) Logical data	(D) Logical data
